

# **Hard Times** by Loran Regis

## **INTRO :** (A7+ D7+)

(A7+ D7+)

There's a sign of hope in everything still to come  
A space in expectancy inside of me of what isn't here, yeah  
I see a light at the other end of this world of illusion  
Where greed, misery and corruption feed fear

**BIS :** But the world isn't made only by one shade  
I wanna see you moving ahead until it's done

## **REFRÃO :** Hard Times, ahh, ahh

There's a vision of a child lost in the universe of sin  
We know the truth but I believe I could know more  
Too much of everything and everything's too much  
Our soul awakens when we discover a new star  
Although the fear of life and of what is bad is still in the air

(Bb7+ Eb7+)

The eyes of time haunting the world's heart with what is still to come  
The fear of time is destroying the outlines of our now

Ahead of my time I keep seeding the Blues of love

**E°**

Ahead of the wind I keep seeding my soul, yeah...  
Hard times upon the world

## **REFRÃO**

(A7+ D7+)

**DINÂMICA :** There's a sign of hope , a light shining through the dark  
A look of a lost child between faith and the end of it all  
And those evil things are still around, ah ah

## **BIS / REFRÃO**

Hard times, ahh, ahh, Until the end  
Ahh,ahh hard times
