

Just Another Song by Loran Regis

INTRO PIANO : D9 G9

It wasn't your fault and it hasn't been mine, anyway
Life doesn't come back to see what's left at the end of a day

It's seems that is over again, it feels like our dreams died today
And all the scars, how they hurt! But they are all what remains

Too many gestures and lies, confused words, alibis
Thinking in terms of tears, I cried for all I believed to be

Just a happy day is all I wanted for us, but you have kept it for you
So in trying to find what's left, of my mind divin' deeper into me

Just a happy day, sweet dreams becoming a song
Simple and without pretense
To be and happen to be, just to render me, like this just another song

SOLO : Bm F#m Em F# } 3X

(Bm F#m Em F#)

BRIDGE : Ah, but what can one do now
When our dreams have left without goodbyes
Do what you have to do

There's a lovely life waiting for you

Too many promises, lies, dreaming deliriously high
Thinking of our little sins, sins you've never wanted to live

D9 *A/C#*
Just a happy day, I know you wanted that, too

G/B
Trying to make our dream work

Em *G*
Always there for me as I've been for you

G#° *D/A* *G/A*
I'd take you with me, please bring me the truth

D9 *A/C#*
Just a happy day, I try to find through a song

G/B
Illusion I'm singing along

Em *G#°* *D9* *G/A*
To see and realize too, that I'm living for you

G9 *D9*
I sing just another song.
